EDUCATION

Chaitanya Bharathi Institute of Technology Bachelor of Engineering in Computer Science Engineering Narayana Junior College Intermediate Education (MPC)	Sep 2023 – Present CGPA: 9.74/10 Jun 2021 – Mar 2023 CGPA: 9.79/10
--	---

SKILLS

Programming: C, Python, Java, SQL, JavaScript
Web Development: HTML, CSS, Bootstrap, React
Backend Development: Node.js, Express.js, MongoDB, Java Servlets, JSP, Spring Boot
Computer Science Fundamentals: Data Structures and Algorithms, Operating Systems, Computer Networks, DBMS, Object-Oriented Programming
Tools: Git, GitHub, Linux, VS Code, SQL Workbench, Oracle SQL
Soft Skills: Communication, Teamwork, Problem Solving

CERTIFICATIONS

Telusko • Learning backend development using Java, Servlets, JSP, and Spring Boot. • Building scalable web applications and REST APIs as part of the program.	Jan 2026 – Present
Codecademy • Completed Java programming fundamentals including object-oriented programming concepts, control structures, and application development basics.	Dec 2025 – Jan 2026

PROJECTS

SpendSmart • Developing a financial analysis system that processes bank statements and spending data to provide intelligent insights into user expenses. • Implementing automated spending categorization, unusual expense detection, and visual financial analytics. • Designing a dashboard to help users analyze spending patterns and make informed financial decisions.	Jan 2026 – Present
MindConnect • Developed a full-stack mental health platform enabling PHQ-9 based depression screening and therapist-patient interaction. • Implemented dashboards with progress tracking using React, Tailwind CSS, and data visualization tools.	Aug 2025 – Oct 2025
Portfolio Website • Designed and developed a responsive personal portfolio website to showcase projects and technical skills. • Implemented a modern UI layout to present projects and achievements effectively.	Feb 2025 – Mar 2025
Interactive Graphing Calculus Tool • Developed a Python-based application to visualize mathematical functions. • Implemented algorithms to calculate roots and intersections with real-time graphical visualization.	Jun 2024 – Jul 2024

EXPERIENCE

JPMorgan Chase & Co. — Summer Software Engineering Intern (Incoming) • Selected for the Summer Software Engineering Internship Program at JPMorgan Chase & Co. • Will work on building scalable financial technology systems and gain hands-on industry experience.	Jun 2026
Walmart Hackathon • Participated in the Walmart Hackathon and built a MERN-based system to generate product recommendations using external APIs. • Implemented functionality to fetch product metadata, analyze review ratings, and rank recommended products based on user feedback.	Jul 2025
JPMorgan Chase & Co. — Code for Good Hackathon • Selected to participate in JPMorgan Chase's Code for Good Hackathon and collaborated with a team to build a technology solution for a nonprofit organization. • Designed a working prototype and presented the solution to industry mentors.	Jun 2025

ACHIEVEMENTS

• Qualified JEE Advanced (AIR 18,000) and secured JEE Mains Rank 29,000 among more than 1 million candidates. • Maintained a 9.74/10 CGPA while actively participating in hackathons, technical projects, and extracurricular activities.

EXTRACURRICULAR ACTIVITIES

• NSS Volunteer, CBIT (Dec 2023 – Dec 2024): Organized blood donation drives, tree plantation activities, and community outreach programs. • Participated in coding competitions, college cultural events, and sports tournaments.
