EDUCATION

Chaitanya Bharathi Institute of Technology
Bachelor of Engineering in Computer Science Engineering
Narayana Junior College
Intermediate Education (MPC)

Sep 2023 – Present
CGPA: 9.60/10
Jun 2021 – Mar 2023
CGPA: 9.79/10

EXPERIENCE

JPMorgan Chase & Co. — Summer Software Engineering Intern Jun 2026 – Jul 2026

- Developed backend components using **Java and Spring Boot**, implementing application logic and services within an enterprise software environment.
- Worked with **Apache Kafka** for event-driven communication and **SQL** for data querying and persistence in scalable backend systems.
- Collaborated within an agile engineering team, gaining hands-on experience with enterprise development practices, debugging, testing, code quality.

Walmart Hackathon Jul 2025

- Developed a MERN-stack product recommendation system integrating external APIs to improve product discovery and user experience.
- Implemented product metadata retrieval, review analysis, and recommendation ranking based on user feedback.

JPMorgan Chase & Co. — Code for Good Hackathon Jun 2025

- Built a full-stack web application using React, Express.js, and PostgreSQL to address a real-world problem for a nonprofit organization.
- Collaborated in a team-based development environment to design, implement, and integrate application features.

PROJECTS

TRACE — Threat Risk Analysis for Code Environments Jul 2026 – Present

- Developing an automated threat-modeling system that uses Tree-sitter to parse source code and extract architectural context including APIs, databases, dependencies, authentication mechanisms, frameworks, and data flows.
- Building a token-efficient repository analysis pipeline that transforms large codebases into a condensed Architecture Summary and Security Surface while preserving security-relevant context.
- Integrating STRIDE, OWASP Top 10, LINDDUN, and PASTA to generate context-aware threat analysis, risk assessments, mitigations, and Data Flow Diagrams.

SpendSmart 🌐 Jan 2026 – May 2026

- Developed a MERN-based financial analysis platform that processes bank statements and spending data to provide intelligent insights into user expenses.
- Integrated Tesseract OCR and **pdf-parse** to extract and process financial information from scanned documents and PDF bank statements.
- Implemented automated expense categorization, unusual-spend detection, analytics dashboards, and a multilingual navigation chatbot.

MindConnect 🌐 Aug 2025 – Oct 2025

- Developed a full-stack mental health platform using the MERN stack, enabling PHQ-9 based screening and secure therapist–patient interaction.
- Built responsive dashboards with progress tracking and data visualization for monitoring user progress.

Interactive Graphing Calculus Tool 🌐 Jun 2024 – Jul 2024

- Developed a Python application for real-time visualization of mathematical functions and their behavior.
- Implemented algorithms to compute roots, intersections, and multiple function graphs with interactive visualization.

SKILLS

Programming Languages: Java, Python, C, JavaScript, SQL
Backend & Databases: Spring Boot, Node.js, Express.js, PostgreSQL, SQL
Computer Science Fundamentals: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks
Distributed Systems & Cloud: Apache Kafka, AWS
Data Science & Machine Learning: NumPy, Pandas, Matplotlib, Scikit-learn
Developer Tools: Git, GitHub, Linux, Visual Studio Code, IntelliJ IDEA, SQL Workbench, Oracle SQL Developer

CERTIFICATIONS

AWS Certified Cloud Practitioner 🌐 Jul 2026

- Validated foundational knowledge of AWS Cloud concepts, core services, security, architecture, pricing, and support.

Codecademy — Java Programming 🌐 Jan 2026

- Completed Java programming fundamentals with object-oriented programming concepts.

ACHIEVEMENTS

- Qualified **JEE Advanced (AIR 18,000)** and secured **JEE Main (AIR 29,000)**.

EXTRACURRICULAR ACTIVITIES

- NSS Volunteer, CBIT** (Dec 2023 – Dec 2024): Organized blood donation drives, tree plantation activities, and community outreach programs.
